fresh roasted coffee

$\rightarrow$ **Fresh roasted coffee from carefully selected coffee beans.**
$\rightarrow$ **Coffee beans are roasted in a local roaster, with great attention to quality and taste.**
$\rightarrow$ **Perfect for espresso and coffee served with milk (cappuccino, latte). The coffee can be brewed in espresso machines, pour-over coffee makers and in a classic way.**

UP LIFE

BRASILIA

Coffee beans of the highest quality Brazilian Arabica (100%). Thanks to its mild, harmonious and balanced taste, it is excellent at any time of the day. This exceptional coffee with aromatic sweet taste and slight hints of nuts and chocolate is appreciated by even the most demanding coffee lovers.

Origin - Brazil
Type - 100% Arabica (Brasilia Santos)
Roast profile – medium
Aroma - sweet
Flavour - chocolate and nuts
Acidity – medium

272100 whole bean coffee 1 kg

272112 ground coffee 250 g

NAPOLI

Dark roasted Arabica beans (100%) are preferred particularly in southern Europe countries. The coffee is characterized by strong taste and intense aroma of hot chocolate. It has an exceptional aromatic taste of cocoa, dark chocolate and nuts. Perfect base for coffee served with a large amount of sugar and milk e.g. latte.

Origin - Brazil
Type - 100% Arabica (Brasilia Santos)
Roast profile - dark
Aroma - intense, dark chocolate
Flavour - cocoa, dark chocolate and nuts
Acidity – low

272102 whole bean coffee 1 kg

272114 ground coffee 250 g

AMSTERDAM

By mixing high-quality Arabica coffee beans (40%) with Indian Robusta (60%), the bitterness of Robusta is softened and enriched. This coffee is characterized by intense taste and aroma. It has higher caffeine content, which makes it perfect for early-morning espresso.
Exceptional coffee with prevailing nutty and chocolate flavour accompanied by noticeable bitterness. Perfect for espresso and coffee served with milk (cappuccino, latte).

Origin - Brazil, Ethiopia, India
Type - 60% Robusta (India Cherry) and 40% Arabica (Brasilia Santos and Ethiopia Djimmah)
Roast profile – medium
Aroma - delicate with slight hints of roasted nuts
Flavour - chocolate and nuts, light citrus overtones
Acidity – low

272101 whole bean coffee 1 kg

272113 ground coffee 250 g

KOPI LUWAK

It is the best, the most expensive and the rarest coffee in the world, highly valued by coffee connoisseurs. It is imported directly from Indonesia and roasted in a local roasting house. Our coffee is 100% original with coffee beans gathered in the wild.

Origin – Sumatra, Indonesia
Type - 100% Arabica
Roast profile - medium
Acidity – low

272115 whole bean coffee 100 g

HOW TO EXPAND

poly-prongs

The number imprinted on the poly-prongs roughly indicates where you should fold the spine.

1. Pull up the yellow finger grip open.

2. Expand the spine according to the number of sheets, then load the sheets in place.

3. Insert the poly-prongs into the fastener side. Now simply push down the yellow finger grip to lock.
To make it easier to turn the pages and read the document, allow some leeway on the poly-prongs when setting the yellow finger grip.

To hold more than 800 sheets, release the hooks in the center on the backside on which the poly-prongs are set, and move poly-prongs in the oppostite direction to the binding margin.

Ⓐ Ⓑ

A. Follow the 2 steps below for detaching the fastener from the file
1. Detach the fastener from the protrusions by inserting a coin between the fastener and the paper cover underneath.
2. Detach the fastener from middle protrusions by inserting your fingers beneath the fastener and pull it upwards.
B. For detaching the poly-prongs, simply pull out the hook portion in the direction as illustrated.

PLUS Stationery Corporation
Japan

document archiving

4

Attention:
Please mind your fingers when removing the PP parts.

ZERO MAX folders

INNOVATIVE PRODUCT

Expandable folder with poly-prongs. A modern alternative to traditional lever arch files. It stores up to 800 sheets of paper (twice as much as a standard lever arch file). The Zero Max system, with its expandable spine, can adjust it's volume depending on the number of documents inside. In case of storing few sheets, the file keeps its narrow spine, i.e. does not create „dead space". Made of recycled materials. Suitable for storing documents in sheet protectors.

ZERO MAX expanding folder

SAVE MORE SPACE!
Adjustable width of the spine

max 10 cm

chair mats

PERFECT FOR HOME AND OFFICE!

Leviatan®

Polycarbonate, highly transparent, non-yellowing floor mats provide the best floor protection for any home or office space. Hard floors as well as carpets covered by a mat are protected from wear and tear caused by moving chairs or heavy objects. They muffle the sound of chair wheels. When the floor mat is placed under flowerpots, it protects the floor from dirt and moisture. Rounded corners prevent from tripping. Mats are suitable for underfloor heating, durable and resistant to damage in accordance with DIN EN 425 for Personal protective equipment.

Index	Size (mm)	Shape	Color

correction tapes

PLUS corrector features

By pushing or pulling, you can make your corrections more precise. Pulling is best for longer corrections, such as full sentences. Pushing works well when you want to correct a single word or a letter.

2 WAY

Equipped with a unique, highly adhesive correction tape (it even sticks to glass and other smooth-surface materials) of two years warranty.
